Engineered Cable Management, Built to Withstand the Elements

EDGE TRAY by CREO Composites represents our advanced line of FRP (Fiber Reinforced Polymer) cable tray systems, developed in close collaboration with trusted manufacturers. Designed for modern industrial demands, our trays offer exceptional corrosion resistance, high strength-to-weight ratio, and fire-retardant properties—making them ideal for harsh or mission-critical environments.

Services We Offer

Custom Cable Tray Design

Fully modular systems designed to handle site-specific loads, spanning, and critical environmental conditions.

Resin Flexibility

We offer trays manufactured using orthophthalic, vinyl ester, or phenolic resins to match fire, chemical, or outdoor exposure requirements.

Complete System Kits

- Fittings & connectors
- Mounting brackets & hangers
- Covers, risers, and bends
- Grounding-friendly accessories

Applications Across Industries

- Power Plants & Substations
- Chemical & Petrochemical Plants
- Marine & Offshore Platforms
- Commercial & Industrial Buildings
- Data Centers & Communication Hubs

Why EDGE TRAY?

- ➔ Rust-proof and corrosion-resistant
- ➔ Non-conductive and fire-safe
- ➔ Lightweight, reducing structural load
- ➔ Customizable bends, joints, and heights
- ➔ Easy to install, even in confined or corrosive zones

Ready to elevate your cable management system?

Let the CREO Composites team support you with expert design, material selection, and fast deployment solutions.
